| PORTFOLIO: <https://suhailultlinks.vercel.app/>

Skills

Languages: C/C++, Java, Python, JavaScript, Html, CSS, SQL

Technologies & Tools: AWS, Docker, ReactJS

Work Experience

Technical Club/HYD:

• Lead the team and Spearheaded the design and development of a Java-based Employee Management System using Swing for an intuitive UI and JDBC for robust MySQL connectivity, streamlining employee data management and reducing manual administrative tasks; Technologies: Java, Swing, JDBC, MySQL, Visual Studio Code, mysql-connector-java, rs2xml, jcalendar

Project Work

- **AI-VsCode Extension:** The Jarvis VS Code Extension integrates Ollama's AI chat capabilities directly into Visual Studio Code, offering developers an interactive AI assistant within their coding environment. This extension provides a seamless chat interface with streaming responses, enhancing productivity and facilitating real-time problem-solving
- **MERN-Blog-Website:** The Fullstack MERN Blogging Website seamlessly integrates a modern blog editor and Google authentication into a dynamic platform, enabling users to create, manage, and interact with content efficiently. Features include dynamic URLs for individual blogs, a comprehensive search function, user profiles with social links, and a personalized dashboard for managing posts.
- **Cybersecurity-Frontend:** The Cybersecurity Frontend project is a web application designed to educate users on various aspects of cybersecurity. It offers an interactive platform where users can learn about topics such as secure web development, common vulnerabilities, and best practices to protect against cyber threats.
- **Java-Employee Management System:** The Employee Management System is a Java-based application designed to efficiently manage employee records within an organization. Utilizing Java Swing for the graphical user interface and JDBC for database connectivity, this system offers functionalities such as viewing, searching, printing, and updating employee information

Education

MAHAVEER INSTITUTE OF SCIENCE AND TECHNOLOGY:

CGPA: 7.0/10

Currently pursuing (Sept 2022 - Sept 2026) B.tech. in Computer Science and Engineering Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advance Data Structures and Algorithms, Information Retrieval, Image Processing

Awards and Certificates

- Done Certification from [DATAFLAIR](#) for Core Java
- Done Certification from [Nxt Wave](#) for AI/ML
